

The fontawesome5 package^{*}

Font Awesome[†](The font)
Marcel Krüger[‡](The L^AT_EX package)

July 27, 2018

This package provides L^AT_EX support for the Font Awesome 5 icons.
To use Font Awesome 5 icons in your document, include the package with

```
\usepackage{fontawesome5}
```

For every icon a macro is provided: Just use the official icon names¹ converted to CamelCase with the prefix `\fa`. For example to use the `hand-point-up` icon, use `\faHandPointUp`. For icons ending with `-alt`, append a `*` instead. An optional argument can be added to select the style (`solid` or `regular`). The default style is `solid`, it can be changed with `\faStyle{...}`

Every icon can also be accessed with `\faIcon{the-icon-name}` or `\faIcon[style]{...}`.

Example

```
...
\usepackage{fontawesome5}
...
\begin{document}
...
A simple icon: \faHandPointUp\\
Multiple versions of the file icon:
  \faFile~
  \faFile*~
  \faFile[regular]~
  \faFile*[regular].\\
Alternative syntax:
  \faIcon{file}~
  \faIcon*{file}~
```

^{*}This document corresponds to fontawesome5 version 5.2.0.1, dated 2018/07/27

[†]More information at <https://fontawesome.com>

[‡]E-Mail: tex02krueger.de

¹For a full list see <https://fontawesome.com/cheatsheet>.

```

\faIcon[regular]{file}~
\faIcon*[regular]{file}.
...
\end{document}

```

A simple icon: 🖱️

Multiple versions of the file icon: 📄 📑 🗂️ 📁.

Alternative syntax: 📄 📑 🗂️ 📁.

Font Awesome Pro

Font Awesome 5 is available in a Free and a Pro version. This package uses the free version by default. If you own a Pro license and have the Font Awesome 5 Pro desktop fonts installed in your system font path, you can use Pro instead. For this, load the package with the `[pro]` option:

```
\usepackage[pro]{fontawesome5}
```

Now additional icons and the `light` style can be used. Pro is only supported with \LaTeX and \Lua\TeX .

Updates

This package corresponds to Font Awesome 5.2.0.1. In case there is a newer version available on the Font Awesome homepage, check for updates on <https://ctan.org/pkg/fontawesome5>. Should there be no corresponding update on CTAN, you can write a mail to tex@2krueger.de. If you use \LaTeX or \Lua\TeX , you can also directly download the new Desktop Fonts from <https://fontawesome.com> into your \TeX tree. If you save them with the filenames

FontAwesome5Brands-Regular-400.otf

FontAwesome5Free-Regular-400.otf

FontAwesome5Free-Solid-900.otf

you can start using the new files right away.
